

Fall Session 2022

Chess King

Chess King provides professional, high quality after school chess programs on the peninsula and in the Santa Clara Valley. Summaries of studies of children who play chess have shown an increase in the development of important life skills particularly cognitive abilities, visualization, emotional intelligence, critical and abstract thinking, problem solving abilities, fluency, reasoning, memory, originality, creativity, etiquette and a general increase in IQ. Chess also helps to remind children that choices we make can help us or not. In short, chess is very good for the development of children's intellect and character.

Chess instruction provided by **Chess King** covers basic chess rules, basic tactics, advanced tactical training and is age, grade and skill level appropriate. Children of all grades are invited to participate, to have fun and reap the rewards and benefits of the **Chess King** program. Each one hour class includes a half hour of instruction designed to help your child play winning chess followed by a half hour of semi-formal tournament play. Awards are presented regularly.
